

Important COVID safety information – 10 September 2020

Dear students

We have worked hard to make our campus safe. For all of our safety plans to work in practice, everyone needs to do their part. If we all pull together on this, we will reduce the risk of transmission of the virus. Here's what you can do to help:

- Ensure you use your designated entrance/exit and study/social spaces
- **Always** wear your face covering when in outside communal areas, corridors, stairways and toilets – the only exception is when you are eating or drinking!
- Sanitize your hand when entering a building
- Sanitize your hands if you touch a high contact area, like door handles
- Follow your teachers' instructions about wiping down desks in the classroom
- Do not congregate in groups in corridors – use the outside spaces for this
- Maintain social distancing with staff
- After 4 pm, you should leave campus unless you are using the library – do not congregate in groups on campus after 4 pm

You can help by staying alert. **Hands, Space, Face:** wash your hands, cover your face and leave space between people. You can also play your part by following social distancing guidance off campus – when you're travelling, in shops, in cafes and restaurants.

NHS guidance on how to wash hands can be found [here](#) .

Don't forget that new restrictions come into force on 14 September: social gatherings of more than six people will be against the law, both indoors and outdoors, including at places like pubs and restaurants. The limit **does not apply when you are on campus**, but please remember that staying safe and complying with COVID restrictions whilst off site will help to keep us all safe.

If you feel unwell and are displaying COVID symptoms, you should stay home and get a test – call 119 or book online at gov.uk – please refer to the [student guidance](#) on our website for further information.
